The ASAM Criteria

Handout 17 – ASAM PPC-2r Risk Rating Crosswalk . through with recommendations. Behavior represents an imminent danger of harm to self and others. Unable to function independently or engage in self-care. Low or no potential for relapse, good coping skills. Minimal relapse potential, with some vulnerability, and has fair self management

Understanding and Using Current ASAM

Criteria

The most recent edition of ASAM's criteria describes a rating severity from zero to four in each dimensions. Often severity or risk is described as low, medium or high; by outlining risk from zero to four, ASAM's criteria provides further granularity and options to be more specific about each dimension's severity and function.
