Despite much speculation, there is no consensus as to the origin of rain cats and dogs. Suggestions range from the supernatural (cats being associated with witches who were credited with raising storms, dogs being attendants upon Odin, the Scandinavian storm god) to the down-to-earth (animals in medieval times drowning in flooded streets in times of heavy rain and their bodies being assumed by the credulous to have fallen from the skies).

it rains cats and dogs - Translation into French ...

A rain of animals is a rare meteorological phenomenon in which flightless animals fall from the sky. Such occurrences have been reported in many countries throughout history. One hypothesis is that tornadic waterspouts sometimes pick up creatures such as fish or frogs, and carry them for up to several kilometres. However, this aspect of the phenomenon has never been witnessed by scientists.

Raining cats and dogs - Wikipedia

A cat won't just use smell to find its way home. It will use sight and sound as well. The thing is, heavy enough rain can interrupt both of these elements. Heavy rainfall, such as thunderstorms, can change an environment drastically. Especially if you live near rivers or creeks. Uprooted trees, destroyed fences, and debris thrown around by powerful winds can confuse a cat.
