Instrument Flight For Army Aviators

Boeing's Loyal Wingman unmanned military aircraft successfully completed its initial low-speed taxi test this week, marking the first time the aircraft has moved under its own power. During the test, the prototype reached a speed of 14 knots while the team verified systems integration and ...

Fort Rucker - U.S. Army Garrisons :: U.S. Army ...

The Selection Instrument for Flight Training or SIFT is the Army's test to see if a potential future pilot is academically qualified. The test lasts about three hours with a break in the middle and ranges from sections that will test your math and physics (an important skill for an aviator) to seeing how fast you can think and react.

SIFT Scores and What They Mean - Military Flight Tests

Not have attended or have been eliminated or graduated from a previous course of military-sponsored flight or preflight instruction program (AR 601-210, para 9-10b(8)). Service Obligation. Upon completion of Warrant Officer Flight Training, there is a 10-year service obligation (AR 350-100).

Jimmy Doolittle - Wikipedia

As things stand, 40 is the minimum Selection Instrument for Flight Training score needed to be considered for the next stage of Flight Training. However, the Army have officially stated that the passing score may be adjusted in the future. Any adjustment will take place based on data gained by comparing Aviation Training performance with SIFT scores. You can contact your local Army education center to receive confirmation of the scores needed at any given time. How important is my SIFT Score?
