Kronos InTouch DX

Most Kronos cards are blank white cards with a dark stripe on the back. Although this looks like a magnetic strip, it is actually a special barcode. We can add a 100% compatible barcode to the back of your photo ID badges, at no additional cost. There are many advantages to combining Time and Attendance with photo identification.

KRONOS 4500 INTERNAL MAG SWIPE READER MSR Surplus Traders

A magnetic stripe card is a type of card capable of storing data by modifying the magnetism of tiny iron-based magnetic particles on a band of magnetic material on the card. The magnetic stripe, sometimes called swipe card or magstripe, is read by swiping past a magnetic reading head.

KRONOS INTOUCH Product Overview

1. Wiegand Cards. Some of the first key cards developed for a key card system were Wiegand cards, named after their inventor. In the 1970's, John R. Wiegand discovered that specially annealed wire made of iron, cobalt, and vanadium will suddenly switch polarity when passed through a sufficiently strong magnetic field. A nearby sensor coil will pick up the rapid change as a high-voltage pulse ...
