Basic integrated Inbound QI process using Embedded S4 ...

The Quality Inspection Engine (QIE) is called by a consumer system, for example, the Extended Warehouse Management System (EWM), and carries out the inspection process that was triggered in this consumer system, for example, an inspection for a goods receipt for a delivery. The consumer system system uses the QIE services.

Basic integrated Inbound QI process using Embedded S4 ...

Note that in SAP EWM, the quality planning and quality inspection business processes are managed through the Quality Inspection Engine (QIE), which is an add-on to the SAP EWM system. After an SAP Extended Warehouse Management implementation, the integrated WM-QM system is only needed to keep the master and transactions data consistent between EWM-QM and WM-QM.
