success.. MBSC decided to start working with Exercise.com to easily deliver workouts online.Exercise.com helped: • Deliver single workout programs

### **Solutions to Exercises**

Muscle cramp is a temporary but intense and painful involuntary contraction of skeletal muscle that can occur in many different situations. The causes of, and cures for, the cramps that occur during or soon after exercise remain uncertain, although there is evidence that some cases may be associated with disturbances of water and salt balance, while others appear to involve sustained abnormal ...

Neither table is particularly easy to work with. Since table2 has separate rows for cases and population we needed to generate a table with columns for cases and population where we could calculate cases per capita. table4a and table4b split the cases and population variables into different tables which made it easy to divide cases by population. However, we had to repeat this calculation for each row.
