### **Vector Mechanics for Engineers: Statics and Dynamics ...**

Vector Mechanics for Engineers: Statics by beer and johnston is simply put the worst book i have ever read advanced calculus is really much much easier than this book and not because the materiel is hard, but because the writers have the amazing ability to turn a simple straightforward idea into an incoherent mess. at some points i would just skip the explanations, because they just make it harder to understand the basic ideas. the authors also seem to ignore common mathematical notations ...
